TOP-CLASS LIGHTING DESIGN

Atmospheric lighting is the key to comfort. That is why we have developed a varied range of high-quality lights you can use to enhance any space in a targeted way. Our lighting is an inspiration, not just for its atmospheric effects but also for its breathtaking appearance. That is why every light accent you create is an appealing design statement as well.

LIGHTING 2.0 – this exceptional collection includes the CANNON, LOOP, CALINA, MARISA and RIVERA series and stands for impactful lighting ideas spanning all their manifestations: you can choose between pendant, table, floor, wall, ground and arc lamps, as well as mobile battery-powered lamps. You are guaranteed to quickly discover your own favourites that you can use to create exciting accents for home lighting and design.

Musterring

your partner for a home that is as unique as you are

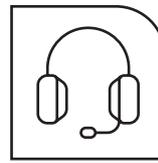

Our quality

Once you have created your favourite home for yourself, you'll want to enjoy it for as long as possible. This is where our passion for quality comes into play: we test our products extensively before we offer them to you. We vouch for this with the Musterring guarantee certificate and a 5-year guarantee.

Our sustainability

We assume responsibility: for you, for ourselves, for our planet. That's why we opt for resource-efficient production methods with no long supply chains or warehousing.

Our service

We want your home to be perfect. That's why we're here for you on the service telephone and at 550 locations all over the world. And our CAD planning service will be pleased to help you achieve your dream interior.

Your individuality

We believe you should be able to create a home that is entirely as you want it to be. And we have a whole world of colours, shapes and materials to help you create this. Be the designer of your own home-me.
